# Senira Mendis

Undergraduate Software Engineer | Driven by Problem-Solving, Innovation & Continuous Learning  
Colombo, Western Province, Sri Lanka

## Summary

I'm Senira Mendis, an undergraduate in Software Engineering at Cardiff Metropolitan University, passionate about technology, problem-solving, and innovation. With a background that combines IT, marketing, and project management, I bring a well-rounded perspective to tackling challenges and building solutions. Beyond academics, I've actively contributed to team projects and volunteer initiatives—serving as Vice Treasurer for a charity fundraiser and collaborating with peers to create an educational Java game. These experiences strengthened my leadership, teamwork, and communication skills while nurturing my drive to make a positive impact.

I'm eager to grow as a professional in the software engineering field, connect with industry experts, and contribute to meaningful projects that merge creativity, technology, and real-world solutions.

Always open to collaboration, networking, and new opportunities in tech and innovation.
